Practical No. 14

Title: Create your own wallet using Metamask for crypto transactions.

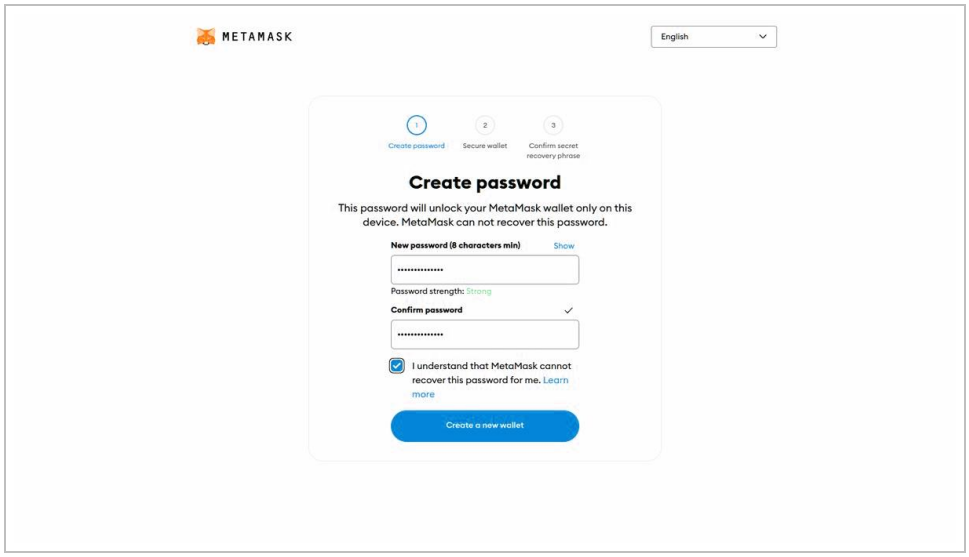

Step 1: Choose “I agree to MetaMask’s Terms of use” and click “Create a new wallet”.

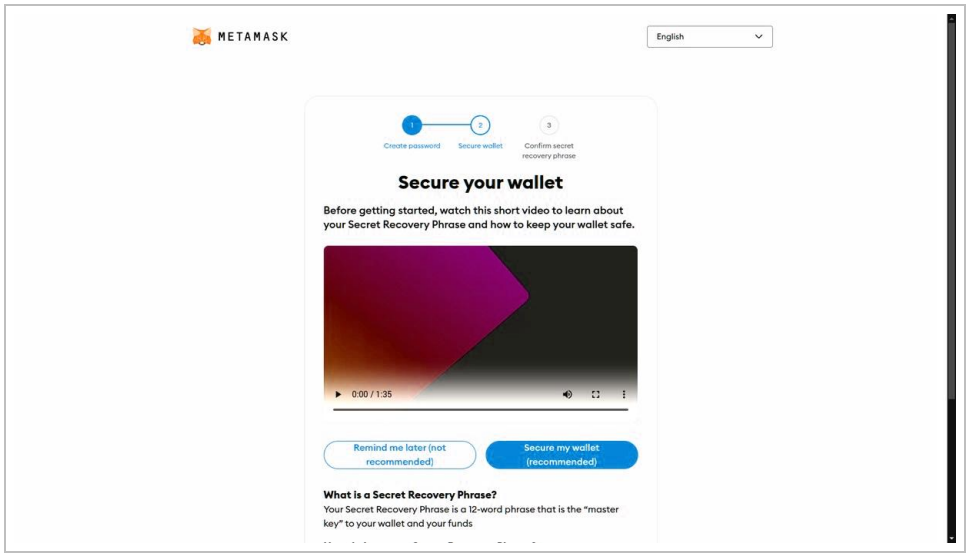

Step 2: Choose “I agree” to share usage data with MetaMask (optional).

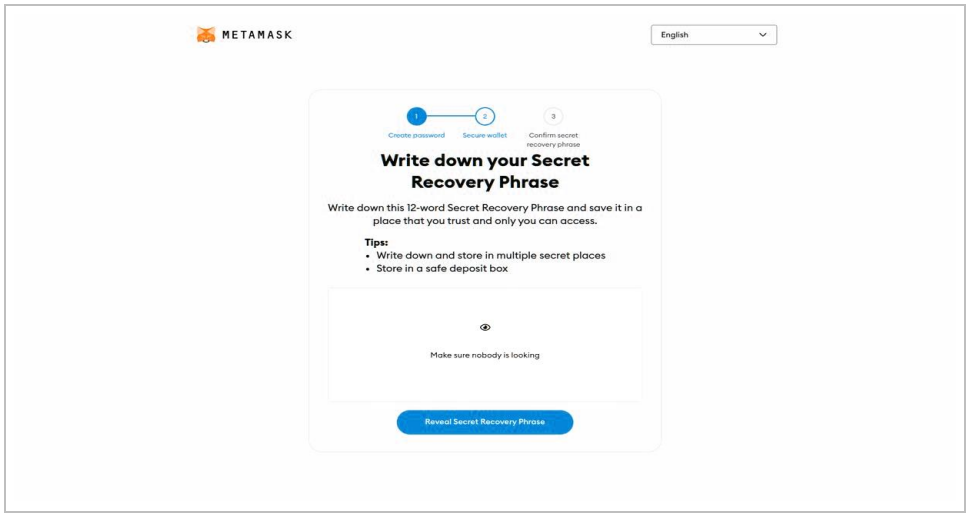

Step 3: Create and confirm your password.

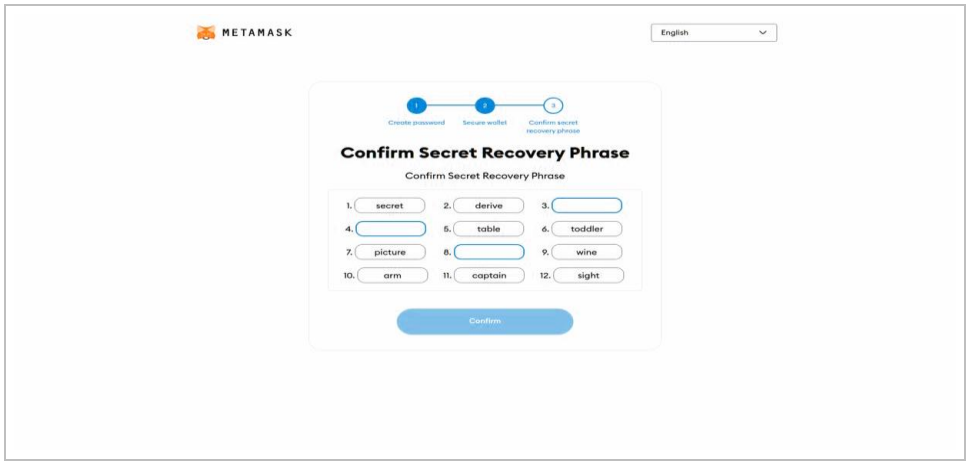

Step 4: Secure your wallet using a Secret Recovery Phrase.

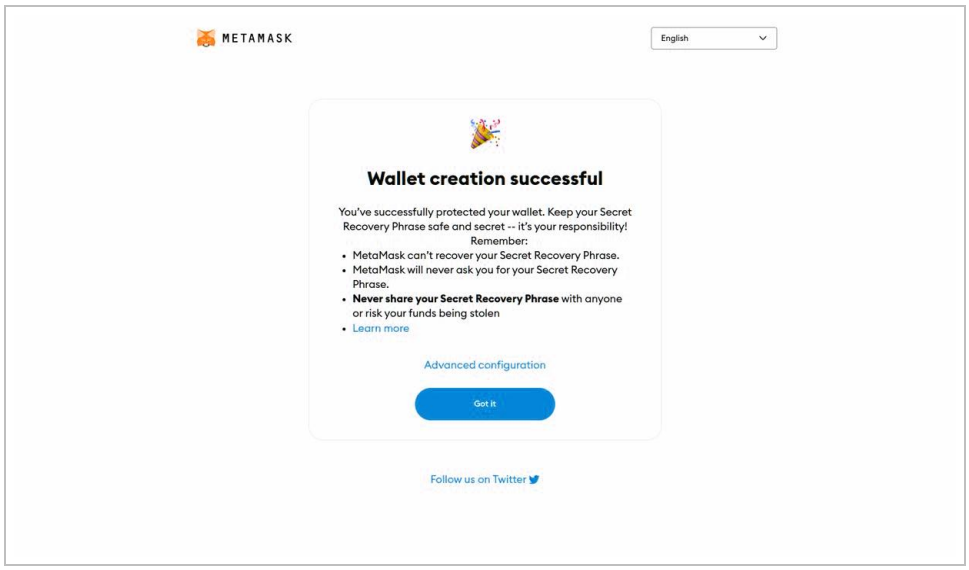

Step 5: Save your Secret Recovery Phrase.

Step 6: Confirm your Secret Recovery Phrase.

Step 7: The “Wallet creation successful” message appears.

Important: Never share your Secret Recovery Phrase or password with anyone. MetaMask cannot recover them for you. For class demos, use a wallet that holds only test ETH.
